Republic of Charcoal

About Us

At Republic of Charcoal, we deliver expertly crafted charcoal — from hardwood, coconut shell, and sawdust — sourced responsibly from Indonesian communities. Clean-burning, long-lasting, and globally trusted, our charcoal combines quality, sustainability, and specialist expertise for BBQ, shisha, and industrial markets.

More than a supplier, Republic of Charcoal is a trusted export partner, providing consistent quality, customizable specifications, and reliable logistics to meet the demands of international buyers. Every product we deliver is supported by strict quality control, ensuring the highest fixed carbon levels, minimal ash, and exceptional performance. Our commitment to sustainability extends from the source to the shipment. By collaborating with local producers and adhering to eco-friendly practices, we ensure not only the integrity of our charcoal but also the empowerment of communities behind its production.

Our product

What We Provide

At Republic of Charcoal, we provide a full range of premium Indonesian charcoal products — including **hardwood charcoal (Halaban, Tamarind, Binchotan)**, **shisha charcoal briquette**, **coconut shell charcoal**, and **sawdust charcoal briquette**. All are produced through traditional methods and modern processes to ensure **consistent quality, eco-friendly standards, and reliable export services**. We proudly serve global markets that demand **clean-burning, long-lasting, and natural charcoal** for BBQ, grill, shisha, and industrial use.

Hardwood Charcoal

Premium hardwood charcoal with long burn time and very low smoke.

Shisha Charcoal Briquette

Eco-friendly briquettes from coconut shells, providing consistent heat and low ash.

Sawdust Charcoal Briquette

High-density briquettes with stable heat and lasting burn.

Coconut Shell Charcoal

High-density briquettes with stable heat and lasting burn.

Hardwood Charcoal

Our hardwood charcoal includes premium varieties such as Halaban, Tamarind, Rosewood, and Binchotan — each crafted from dense Indonesian hardwood. Known for its long burn duration, minimal smoke, and high heat output, it's ideal for BBQ restaurants, shisha use, and industrial fuel needs. This charcoal burns cleanly, making it a reliable choice for those who value both performance and purity.
